

IBRAHIM MABROUK

Alexandria, Egypt | 01010795287 | aallzdy@gmail.com

PROFESSIONAL SUMMARY

Dedicated third-year Geophysics student seeking a summer internship in the oil and gas industry. Interested in seismic interpretation, hydrogeophysics, subsurface analysis, and geophysical surveying. Skilled in geophysical software applications, field measurements, and geological mapping with practical field training experience.

EDUCATION

Bachelor of Science in Geophysics

Al-Azhar University, Egypt

Expected Graduation: 2027

TECHNICAL SKILLS

- Seismic Data Interpretation
- Well Logging Analysis
- Magnetic & Gravity Data Interpretation
- Geoelectrical Methods (Wenner & Schlumberger)
- Subsurface Mapping & Structural Analysis
- Geological Mapping
- Geophysical Surveying

SOFTWARE SKILLS

- Petrel
- Oasis Montaj
- ENVI
- Surfer
- Didger
- Microsoft Excel

TRAINING & FIELD EXPERIENCE

Field Training – DRC (January 2025)

- Conducted hydrogeophysical field measurements and data acquisition
- Applied groundwater exploration techniques
- Analyzed geophysical survey data
- Received Excellent evaluation

Geological Field Training – Western Desert, Egypt

- Identified major geological formations and sedimentary environments
- Applied geological mapping and field observation techniques
- Studied stratigraphy and lithology of the Western Desert

PROJECTS

Seismic Interpretation Project

- Interpreted seismic sections to identify faults and subsurface structures
- Detected potential hydrocarbon traps

Geoelectrical Survey Project

- Applied Wenner and Schlumberger configurations in field surveys
- Interpreted resistivity data for subsurface investigation

Magnetic Data Interpretation Project

- Analyzed magnetic anomalies using filtering techniques
- Identified subsurface structural features

SOFT SKILLS

- Teamwork
- Communication Skills
- Problem Solving
- Time Management

LANGUAGES

Arabic: Native

English: Good
